Colour Disclaimer

The colours displayed on this in-stock colour chart are provided as approximate Hex codes only. Actual powder coat colours may vary due to differences in screen settings, device displays, lighting conditions, and individual perception.

For our *premium* stocked colour range, surface textures cannot be accurately represented online and are shown as the closest approximate colour shade only.

Prior to finalising your colour selection, we strongly recommend ordering a physical colour sample from [dulux.com.au](https://www.dulux.com.au), visiting your local paint shop for a sample or visiting our showroom to speak with a friendly team member and collect a real-life colour sample.

This will ensure you are confident in your final choice.

Quality on all levels
